

# Block Watch Seminar

## Looking For a Way to Improve Neighborhood Safety?

The Block Watch Program is a simple, effective method of getting neighbors to talk about safety and preventing crime.

Block Watch is one of the most effective and least costly ways to prevent crime and reduce fear. Block Watch fights the isolation that crime both creates and feeds upon. It forges bonds among residents, helps reduce crime and improves relations between the police and the communities they serve.

Attend this seminar to learn about the Block Watch program and how it can help your neighborhood focus on safety. Hear tips and strategies from Block Watch members who have successfully tackled drug houses, crime trends, sex offenders and squatters.
